

PVC SLATWALL PANELS
GARAGE STOARAGE SYSTEM

www.topbldgmat.com

OUR ADVANTAGES:

Built to load:

With formula modified for 20+ yrs, our slatwall's holding capacity ranges from 45lb to 120lb per sqft, suitable for various uses.

Resistant to Damages:

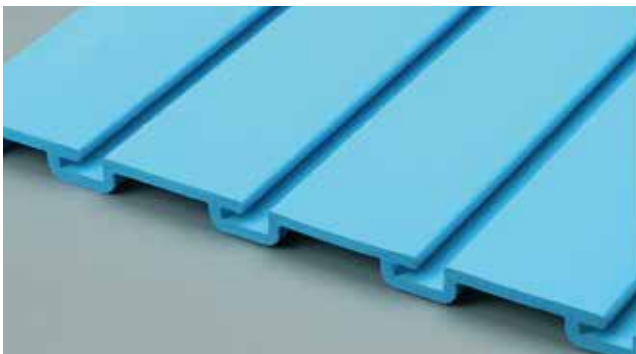

Our PVC slatwall can endure huge impact with interlocking panels. It's also fireproof and anti-corrosion.

Easy to install:

Easy to saw and nail, our slatwall can pair with different trims to cover the traces & holes from the installation.

100% Recyclable:

Made with 100% recyclable PVC material, our slatwall shows our promise to a sustainable future.

ABOUT US

As the next generation of a family with nearly 30 years of manufacturing expertise, we understand that low costs and quality products alone cannot meet all customer needs. We are dedicated to providing comprehensive, attentive services from pre-sales to after-sales, striving to build long-term, trust-based partnerships with every client. Specializing in PVC building materials, decorations and tools, we operate nearly 80,000 square meters of manufacturing facilities across multiple locations in China, ready to be your capable supplier and accommodate various kinds of customization needs.
